SIR

Subject - Elevated reservoir for improving the water supply to the Krishnarajnagar Minor Municipality

--

Adverting to G O No 2029-62/ L 93- 0-14 dated 6th September 1941 sanctioning an estimate for the above for Rs 16,000/- I have the honour to state that the Sanitary Engineer submitted to this office a modified estimate for Rs 16,000/- as also the only tender of Mysore Irrigation and Construction Company, Bangalore City for Rs 7024-1-6 received in response to notification in the Mysore Gazette The modified estimate was approved and the tender was accepted and returned to the Sanitary Engineer with this office G O 73-15 dated 1 th March 1942

In his letter No 1561 dated 15-4-42, the Sanitary Engineer intimates that after the acceptance of the tender was under consideration, the contractors for the Dam petitioned for extra rates owing to rise in prices of Iron materials, Cement etc After convincing himself of the reasonable ness of the representation, the Sanitary Engineer recommended the enhancement of their tender amount to the extent of Rs 2,500/-, viz , Rs 200 for the Dam and Rs 300 for Labour portion as detailed below -

1	[illegible]ent	120/-	
2	[illegible]einforce[illegible]nts	1260/-	
3	[illegible]hutt[illegible] [illegible]re	70/-	
4	[illegible]re [illegible]ills	196/-	
5	[illegible]ors [illegible]or	350/-	(against 0-3-0 extra, [illegible] allo[illegible])
6	[illegible]ater proo[illegible] [illegible]aterin[illegible]	170/-	
7	[illegible]iscellaneous	40/-	
	[illegible]abour portion	300/-	(lump sum, details to be worked out during execution
		2,500/-	

[illegible] the [illegible]or[illegible] portion of the estimate comes to 10,214/- the enhancement from [illegible] 70[illegible]4-1-6 to 10[illegible]4-1-6 will still result in a saving of 1389-1 -6 or [illegible] 1390/- roughly [illegible]he calling of fresh tenders may not result in any lo[illegible] tender owin[illegible] to fluctua[illegible]ns in [illegible]arket conditions [illegible] or the same reasons, the [illegible]anitary [illegible]n[illegible]neer has been permitted to allo[illegible] the contractors to proceed [illegible]ith the [illegible]or[illegible] in anticipation of sanction of [illegible]overnment to the enhancement proposed

I request you to [illegible]e so [illegible]ood as to obtain and convey sanction of [illegible]overnment to the enhancement in the accepted tender amo[illegible]nt as mentioned above

A copy of letter dated 15-4-46 of the Sanitary Engineer, [illegible]ith the tender, an original estimate, [illegible]ualified estimate, [illegible]o[illegible]parative statement and plan is enclosed for [illegible]nformation and return.

I have the honour to be,
Sir,
Your most obedient servant,

[illegible]

DIRECTOR OF PUBLIC HEALTH

Letter o 1561 dated 15-4-42 from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, to the Director of Public Health in Mysore, Bangalore

--

Erection of an R C C tank of 10,000 gallons capacity at Krishnarajanagar

-

I have the honour to state that for the above work, a modified estimate for Rs 16,000/- was sanctioned in your o o 76-15/ 1 dated 14th March 1942 Tenders are called for, for construction of the tank and also for the labour portion of the estimate, based on the quantities provided in the sanctioned modified estimate Only one tender from Messrs Mysore Irrigation and Construction Company, has received and it compared with the estimate as noted below -

		Estimate	Tender
R C C tank	Rs	10,000	6,000
Labour	Rs	914	1,034
	Total Rs	10,914	7,024

This tender was accepted in your o o 76-15/41 14th March 1942 When the acceptance of the tender was under consideration, the contractor petitioned to me (copy enclosed) stating, that owing to rise in prices of iron materials, cement etc , they have to be paid extra rates Considering the unsettled circumstances due to war situation, and since prices have gone abnormally high, the contractors were sent for and their representation heard I had a discussion with them on their claims According to them, they require to be compensated to the extent of 3,906-10-6 per cent through every item of the schedule and I am convinced generally of the reasonableness of the enhancement and propose that a sum of 3,906-10-6 or there, enhancement to an extent of Rs 3,200/- may be permitted, i e 3,200/- for the tank and 600/- for labour portion, as detailed below -

1	Cement	120/-	
2	Reinforcements	1260/-	
3	Binding wire	70/-	
4	Wire nails	196/-	
5	Iron work	550/-	(against 0-3-0 extra, one anna allowed)
6	Water proof plastering	170/-	
7	Miscellaneous	10/-	
8	Labour portion	600/-	(lump sum, details to be worked out during execution)
	Total	3,200/-

Sir,

Re - Elevated Reservoir for improving the water supply to the Krishnarajnagar Minor Municipality

With reference to your letter No L 8905 MU 125-41 on the above subject, I have the honor to state that the work of improving water supply in the K R Nagar Minor Municipality has been entrusted to the Mysore Irrigation and Construction Co , and the work is in progress

The firm have asked for extra rates owing to rise in the prices of iron materials and in view of the likelihood of the rates being higher still if tenders are called for again, the Sanitary Engineer has been permitted to allow the contractors to proceed with the work in anticipation of sanction of Government to the enhancement as recommended in this office letter No C 73-24 dated 2-5-42

The Sanitary Engineer in his letter No 1593 dated 20-4-42 (copy enclosed) reports that the Assistant Engineer, No 2 Sub Division, Mysore, has been directed to push through the work and complete the same early

I have the honour to be
Sir,
Your most obedient servant,

OFFICE OF
The Chief Engineer of Mysore,
Public Works Department,
Bangalore,
Date 27 August 1942

The Secretary to Government,
Law Department,
Bangalore

Sir

Subject:- Construction of an elevated reservoir for the improvement of water supply to Krishnarajanagar Minor Municipality

With reference to your Memo No L 152 dated 7th July 1942, forwarding a copy of letter addressed to the Director of Public Health in Mysore, Bangalore, and calling for my opinion as to whether some of the tanks cannot be put up with well dressed stone slab properly fixed, I have the honor to inform you that construction of tanks with stone slabs is usually restricted to tanks of capacity of 1,500 to 2,000 gallons where the span is small and size of slabs handy in the present instance where the capacity of the tank is 40,000 gallons and the span very great, it will be practically impossible to get slabs of sufficient thickness and length and the adoption of the stone slabbed cistern will not be practicable

I have the honor to be,
Sir,
Your most obedient servant,

CHIEF ENGINEER OF MYSORE.
